Mounting Hole

# Setting Up Waggle 4G TravelCam

## Step 1: Download the “Waggle Pet App”

Download on the  
App Store

GET IT ON  
Google Play

## Step 2: Add Waggle 4G TravelCam

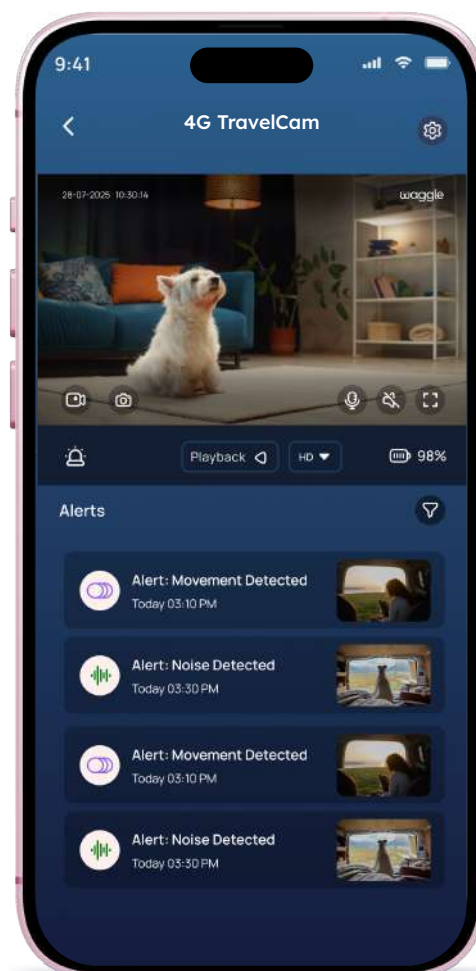

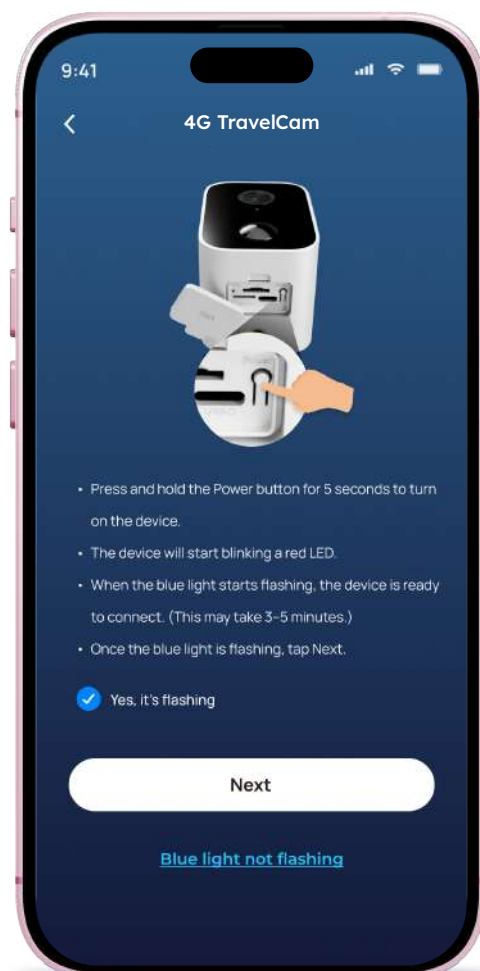

- Open the Waggle Pet App.
- Tap the + icon in the App to add your camera.

## Step 3: Registration of Device

- Scan the **QR code** on the back of the **Waggle 4G TravelCam** and enter the required details.

## Step 4: Connecting the Device

- Press and hold the power button to turn on the camera.
- Wait until the blue light starts flashing, then click '**Next**'.
- Your camera will connect automatically in few minutes.
- Your camera is now ready to stream live video.

# Charging the Camera

**Connect the camera to a power outlet using the provided cable.**

- 1 The indicator light turns white while charging and turns off when charging is complete.
- 2 Solar-ready. Panel sold separately

## Camera Installation

### Magnetic Mount – Stick & Go

Magnetic base included in the box for quick, tool-free installation. Simply place it on any steel surface. No tools required.

### Easy 3M Adhesive Mounting

- Peel off the protective layer from the double-sided adhesive tape and apply it to one side of the steel metal base.
- Stick the base firmly onto a clean, flat surface at your desired location and allow it to set for 2 hours.
- Attach the Waggle 4G Travel Cam by placing its magnetic base onto the steel plate.

***Peel & Stick*** for  
magnetic mount

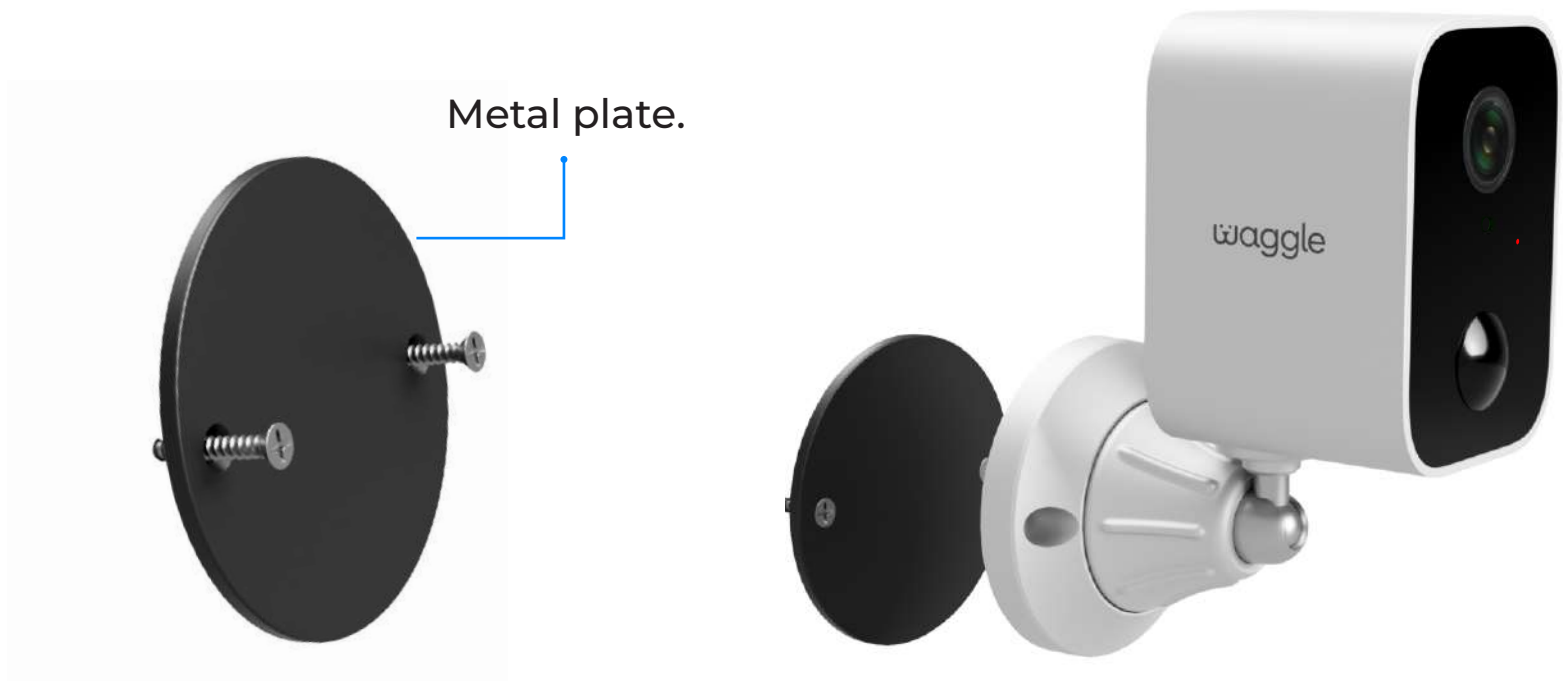

***Screw it***  
for wall mount

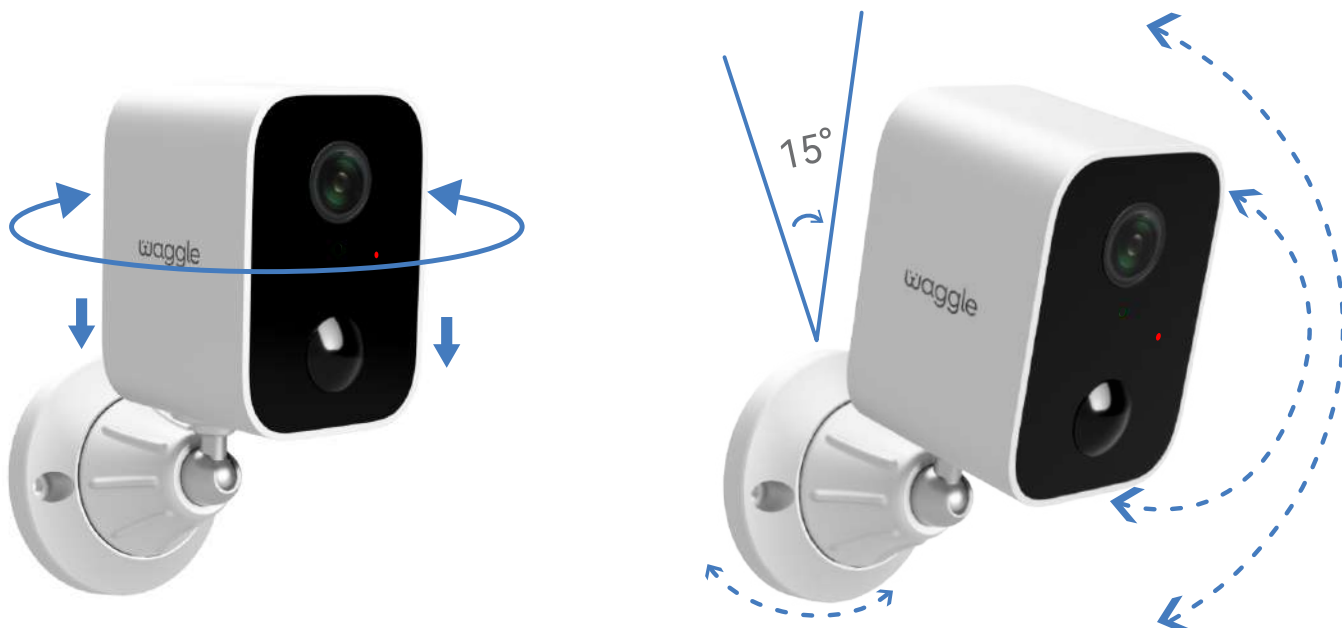

**Warning:** For use while in motion, secure the device using the provided screws

# Secure Screw Mounting

- 1 Place the metal mounting plate at the desired installation location and mark the positions of the two screw holes.
- 2 Securely fix the metal plate using the screws.
- 3 Attach the camera with the magnetic base to the metal plate.

- 4 Adjust the magnetic base screw to set the required viewing angle, then tighten it to lock the position securely.
